

LASERS FOR INDUSTRIAL PROCESSING

FUNDING & NETWORKING EVENTS

- ✓ Interested in lasers and how they can help you make better products or new materials?
- ✓ Do you have an idea about a novel application for lasers in production?
- ✓ Do you have an idea for a new laser source that could be the next product?

Then this series of ESP KTN events at four locations across the UK is for you.

The events provide:

- ✧ information about the TSB call "Lasers for Industrial Processing" which opens on the 23 Sept 2013 and
- ✧ an opportunity to pitch a project idea and to network to find new partners or a missing collaborator for the call.

All events include a presentation and tour of unique laser facilities and a keynote industrial presentation showcasing how lasers are used in manufacturing.

Register now at a dissemination and networking event near you:

Tuesday 1st October 2013, Edinburgh
<https://lasersheriot-watt.eventbrite.co.uk/>

Thursday 3rd October 2013, St. Asaph
<https://stasaph.eventbrite.co.uk>

Friday 4th October 2013, Birmingham
<http://birminghamlasers.eventbrite.co.uk/>

Friday 18th October 2013, Bristol
<https://nccbristol.eventbrite.co.uk>

For more details of the call please contact Anke Lohmann by email anke.lohmann@espkn.org
